

TENANT SCREENING PLUS PRICE SHEET

Tenant Screening Plus makes it easy to make the right decisions. You gain insight, clarity, and confidence — so you can minimize risk and rent with peace of mind.

With Tenant Screening Plus, it's about data – not intuition. You take control by sending the tenant a secure link where they can provide the necessary information. Keyhole then analyzes the data and assigns the tenant an overall assessment based on the results.

The tenant is assessed based on several factors, including:

- Payment remarks
- ID validation
- Calculation of disposable income

The result provides a solid foundation for decision-making, so you can rent out with confidence and professionalism—every time.
